About Me

A motivated Computer Science undergraduate student. Teaching Assistant in Calculus, Discrete Mathematics I & II, and Algorithms. Recipient of a summer research grant, conducting work on Neural Architecture Search for Signal Processing. Ranked among the top 2% of my cohort with an average grade of 9.38.

Professional Experience

SPRING 2026
ARION BANKI - INTERN

Intern in the 'AI & Automation' team at Arion Banki over the course of the spring semester in 2026.

2024 -
REYKJAVIK UNIVERSITY - TEACHING ASSISTANT

TA for the following courses in Reykjavik University's Computer Science program:

- Discrete Mathematics I (Autumn 2024)
- Algorithms (Autumn 2025)
- Calculus (Autumn 2025)
- Discrete Mathematics II (Spring 2026)

SUMMER 2025
RANNÍS - NEURAL ARCHITECTURE SEARCH RESEARCHER

- Conducted research on optimizing ensemble model architectures for bio-signal-based sleep stage classification using Neural Architecture Search (genetic algorithms).
- Designed and implemented evolutionary algorithms for optimizing 1D CNN architectures.

Achievements

- Named to the Dean's List (Fall 2024) for academic excellence (Average grade: 9.80).
- Named to the Dean's List (Autumn 2025) for academic excellence (Average grade: 9.60).
- Awarded a research grant from Rannís (Nýsköpunarsjóður námsmanna).

Education

REYKJAVÍK UNIVERSITY
BSc in computer science
Aug 2023 - May 2026

LUND UNIVERSITY
Exchange Semester
Jan - May 2025

Skills

- Technical: Python, Java, C++, Postgresql, Git, TensorFlow, PyTorch, NumPy.
- Specialized: Machine Learning, Data Science, Deep Learning, Algorithm Design & Analysis.
